Hello,

My name is William Lodge. I have been enrolled in Boulder County's Coordinated Entry system through All Roads for over one year.

During this time, I have remained unhoused while working. I have checked my status multiple times and have only been told that I am "still on the list," without any reassessment, prioritization details, or guidance on realistic next steps.

I am writing to formally request the following:

Written confirmation of my current Coordinated Entry status and prioritization

Clarification of which housing programs I am currently eligible for

Confirmation that my work schedule and inability to attend nightly shelter lotteries due to employment have been documented in my file

Guidance on whether a reassessment or updated review is appropriate at this time

Clear information on what actions or changes would meaningfully affect my placement or eligibility

I work whenever possible, but evening and overnight gigs often prevent me from attending the nightly shelter lottery, which has resulted in being turned away many times despite active engagement with the system.

I am motivated, engaged, and actively trying to secure stable housing. I am requesting transparency and direction rather than remaining indefinitely on a list without feedback.

Please let me know how best to proceed and whether this request can be reviewed or forwarded to the appropriate Coordinated Entry staff.

Thank you for your time and attention.

Sincerely,
William Lodge

Hello William,

Thank you for sharing your situation and the frustrations you have been experiencing.

Boulder County contracts with community partners to operate the Coordinated Entry system. As a result, we do not have direct access to individual Coordinated Entry records, prioritization details, or program eligibility information.

We have relayed your message and concerns to leadership at All Roads, which oversees Coordinated Entry for the City of Boulder, and will follow up with them directly. Their team is best positioned to address questions related to status,

documentation, reassessment, and next steps.

Thank you for reaching out and for continuing to engage with the Coordinated Entry process.

Sincerely,
Boulder County Homeless Solutions
